

Statistical methods by sp gupta pdf

About this item: Orient Blackswan, 2019. Soft cover. Condition: New. First edition. Contents: I. Early Village Studies: 1. The Social Structure of the Village of Mysore/M. N. Srinivas. 2. Social Structure and Change in UP/McKim Marriott Village. 3. Oria Hill Village/F. II - Rural Structures: 4- The Myth of Self-Sufficiency in the Indian Village/M.N. Srinivas and A.M Shah. 5. The Shamar family in a northern Indian village: structural unit/Bernard S. Kun. 6. An individual case study and a statistical method of social investigation/Ervati Carvey. Identity and politics: 7- RSS/D. V. Kelkar. 8. Sripuram: Village in Tanori/André Petit province. 9. The class orientation of political factions: Mudasa District: Case Study/Rajni Kothari and Ganchiam Shah. 10. Class and sect/N'ssmal Kumar Boss. Analytical frameworks: 11. The Keynesian economy and underdeveloped countries/A.K. Dasgupta. 12. Economics Teaching/ Joan Robinson. 13. Peasant economy as a category in economic history/ Daniel Thorner. Development and planning: 14. Case of aborted growth: India, 1860 1900: Some suggestions for a research/George Rosen. 15. How to Industralise Underdeveloped Region / Paul N. Rosenstein Rodin. 16. Selection elements in the layout of The Temporal/S. Chakravarti and R. S. Ekaus. 17. Structural linkages in the Indian economy/Krishna K. Bharawaj. Relative growth rates: Agriculture and industry/Ashok Rodra. Policy discussions: agriculture: 19. Turning Fortunes agriculture: General Setting / W Arthur Lewis. 20. Rethinking developments: Changing wealth in agriculture: the experience of Idcs/D21 - memorandum on cooperative agriculture/Amlan Data. 22. The context of cooperatives in rural India/ Daniel Thorner. 23. Agricultural structure in 12 provinces/M.L. Datanawala. The main and minor irrigation works: an initial cost and revenue comparison/Ranjit Gupta. The size of the holdings and productivity/Amartya Kumar Sen. Problems of numbers in livestock development / V.M. Dandikar. The cost of the project is \$1.5 million, or \$1.5 million. Policy discussions: industry: 28. Small-scale industries: the problem of technological change/K.N. Raj. 29. Mill vs. Home Industries: Method of Evaluation / Jan Tinbergen. 30. Size, technology and economy: a study of the Indian cotton textile industry/c.C Sandisara. Public finances and distribution: 31. Federal Financial Prospects / Bhabatosh Data. 32. Tax reform in India/ Nicholas Caldor, 33, Economic growth and rural-urban income 327 Distribution; 1950 51 to 1960 61/V, K, R, V, Rao, The distribution of public health and education services/n Bhattacharva b, Dai, Culture, management and leadership; 35, Man and Plan in India; Background/D,B, Mukeriee, Language problem: solution/or L. Chavarria-Aguilar. The government's ability to address the problem of the poor and the poor in the country is a problem. Administrative institutions Kothari. 39. General practitioners versus specialists in the Indian administration I/Asoke Mohan Roy. 40. General practitioners versus specialists in the Second Indian Administration/Asuki Mohan Roy. 41. Generalists vs. Indian Management Specialists: Commentary/Deepak L. 42. The Meaning of Jawaharlal Nehru/Rajni Kothari. 43. The economic ideology of Jawaharlal Nehru/M.L. Dentowala. The weekly economic magazine was launched in 1949, shortly after India's independence. This period was full of hope and expectations, but also skepticism and rethinking. Under the leadership of the illustrious founding editor, Sachin Chowdhury, the magazine guickly became a major platform for the finest minds of the time, providing a variety of scholarships and space for different, often conflicting ideological positions. Read India: Anthology of The Weekly Economic Journal: Volume 1: 1949 1965 combines historical studies in sociology, politics and economics that capture the major analytical and political discussions published in the journal from 1949 to 65. The articles span a wide range of studies, exploring. Seller Inventory No. 131611 More information about this seller I. About this item: BSP, Hyderabad, 2004. Harded. Condition: As new. New. Introduction to contents. Land use management practices in India 1. Land use management practices backwards and probability/G. Ravi Shankar V. Ragavasumy and N.C Gautam. 2. Effective management of land use while keeping in the light of aspects of groundwater / Asis Battacharya. Land-use dynamics and agriculture system 3. Land-use dynamics and agricultural agricultural agricultural system land use/land cover change with a special reference to India/R. Naganaga and R. R. Navalgund. 4. Soil Fertility Department in Andhra Pradesh/A. Srinivasa Raju. 5. The susceptibility and productivity of some typical soil species in Bhaktabur district of Bihar and its suitability for land use planning/S.K. Chandra and F.N. Singh. 6. The impact of forest leaf and manure waste on soil characteristics and the growth of chili yields in the yalyrite soil in the Konkan/K. Chavan S. Mgar and D.K. Umab. The establishment of a database, the use and management of land. National (Natural) Resource Information System (NRIS)/A. R. Das Gupta R. K. Goel. 8. Remote sensing and its applications with a special reference to land use studies /A.S. Manganath. 9. Remote sensing and GIS for land use/data generation on national land cover is an Indian experiment/R Nagaraja G Ravi Shankar Manoj Raj Saxena, Rajiv Kumar and B. Schvamander. 10. Statistical methods in land use data analysis/Saruga Rama Rao and J. Siva Ram. Land use/land cover and environmental issues. They are for land use/land cover with particular reference to forests in India/J.K. Rawat. 12. Geoinformatics for biodiversity assessment/MSR Murthy. 13. Disaster management and mitigation using remote satellite sensing a few case/v studies in Bannumorthi. 14. Land Resource Management in The Bhal Singam Area of Harvana Ecological Development Area/K Muthi Kumar M.L. Manchanda Ji Behira, Land degradation and land use 15, Remote sensing of soil and land degradation in India/S.N. Das, 17, Factors driving land degradation in Uttar Pradesh in the past, present and future/A.N. Singh, The role of high-resolution remote-sensing data in micro-level planning/P V P P Prasada Raju/Sujata Ghosh and J. Saibabu. 6. Management of watersheds for water resource planning/n.C Gautam V. Ragafswamy R. Nagaraja J. Ravi Shankar and B. Rama Mohan. The government's policy of de-amalcifying the economy is a major problem. Urban land use planning and land management 22. Urban land use planning and land management 23. Urban land use planning and land management using remote sensing and GIS/V Raghavswami. 23. Satellite-based urban land use maps for the Hyderabad urban area drafted the master plan in January 2003 in Hyderabad in an effort to improve public participation/S.B. Shori and V. Raghavswamy. 24. Scenic assessment of recreational land use, a study of regional morphoform forms in the Khamama Andhra Pradesh/S. Bessaanda and G. Sumnath. 25. Consumer Behavioral Trends Patterns Study in Retail Land Use Activities / S. Padmaja and Muhammad More Ali. Land-use policies for the new century approache adaptive human ecosystems / K.V. Sundaram 27. The need for land use planning and strategies with a special reference to Uttar Pradesh/Medola Singh. The government's policy of de-amalcifying the state of the country is to ensure that the rights of the people are fully realized. The government's efforts to improve the health of the people of The Province of Santo-2 were also a cause for the government's efforts to improve the health of the country's children. The country's land resources are limited and declining due to the increasing degradation of population land and the transformation of land. 10. Today, the availability of land use/land cover information in the form of thematic map records and statistical figures is inadequate and incomplete on changing land use patterns and processes. National Conference on Land Use/Land Cover and Management. Seller Inventory #51031 More information about this seller | Contact this seller 2. About this item: B R Pub. Hardbound. Condition As new. Contents: Introduction. Title of the main note: Challenges facing statisticians in the new millennium /Padam Singh. Presidential Speech: Achievements and Aspirations/V.G. Kaliaperumal. 1. Statistical methods: 1. Calculation of association and compliance in randomized cluster trials/T. Loeys, S. Vansteelandt and E. Goetghebeur. 2. A comparative assessment of the probability ratio obtained through the density and logistics regression technique/A. Mukherjee, A. Mathur and N.C. 3. The impact of cluster sampling on assessment and testing is important in population control studies/.C Gupta and Badam Singh. 4. Relative risks under case control designs: comparison of SRSWOR and reverse sampling/Badam Singh and Tulsi Adhikari. An approach to assessing the linear direction between means/t. rament h. N. Syed. Applications of statistical methods in health and development: 6. Estimate of expectations in early births/N.K. Tayaji. The number of women in the national police is 12.5 per cent. 8. Theoretical randommodel ing for indirect evaluation of human endurance / S.S. Verma. 9. Determining the simultaneous dose of component drugs in co-pharmacological therapy/S.K. Mandal, M. Abbas, Mukesh Srivastava. 10. Biovalent features testing in anti-diabetic screening of new compounds/S.K. Mandal, M. Abbas, Mukesh Srivastava. 11. The interval between QTc, SY, SY and sys-a-statistical comparison/S.V. Kakade, R.N. Kadam, P.M. Durgawale, Y.R. Kadam and D.T. Shirke. 12. Differences in hdi of 419 pages. Seller Inventory No. 43372 More information about this seller | Contact this seller 3. About this item: Agrobios, Jodhpur, 2008. Harded. Condition: As new. Printed. Introduction to contents. List of shareholders. 1. New opportunities in plant breeding / S.K. Gupta and H.R. Kalia. 2. Wheat/J.S. Pager. 3. Prasika/S.K. Gupta. 4. Flaxseed/ha. L. Thakur. 5- Sesame/A. Amirthadavatnam. 6. Plantago Ovauta Forsk/Manoj K. Dar Sanjana Cole and Sugata Jamul. 7. Celery/D.K. Chowdhury and B. L. Cole. 8. Saffron/P.L. Cole and Sushma Cole. 9. Bipigia/K.B Saxena. 10. Cellular genetics of paramedics and feed benisetoms/bhagmal and S.N. Tripathi. 11. Tomatoes/P.K. Kalia. 12. Pea Garden / P.K. Callia. 13. Cauliflower/P.K. Callia. 14. Onions/B.K. Kalia. 15. Applications of biotechnology approaches to crop improvement/R. Kaur Dr. R. Sharma and K. Kumar. 16. Quality parameters and estimates in crop plants/S.K. Munshi and R.K. Raheja. 17. Chromosomal Techniques/A.K.K. Ko and Lina Badha. 18. T.K. Sharma. 19. Practical approaches to the breeding of hadan/S.K. Gupta and B. View. 20. Disease-resistant education techniques/ Ashwani K. Basandri and Daisy Basandri. 21. Statistical Techniques/Hussein Tahir and S.K. Gupta. The subject index. The book is about plant breeding - theory and techniques is the most modern and comprehensive book for plant breeding. Although there are excellent scriptbooks/edited books for graduate studies and researchers after the need to book having a theoretical background for each crop and various techniques involved in improving yields for long-term undergraduate students. Scientists on the front lines from across the country have contributed chapters on their specialty. The first part of the book contains information up to the latest date on various crops viz. Copper wheat sowing sesame seed sunflower lsabgol (Plantago ovata) medical safiron celery and outdated benisitum tomato gardenpea cauliflower cauliflower and onions. The From topics such as celery saviron and Isabgol marks the book's distinction. The various aspects of each viz crop have been beautifully discussed. The origin of geographical distribution and the evolution of floral biology selfy & amp; cross-breeding techniques used in improving crops to develop new varieties that have been presented. Quality standards and estimation of chromosomal techniques and practical approaches to hrode breeding have been presented to students participating in laboratory work. The inclusion of topics such as disease resistance, biotechnology and statistical techniques make the book up its history and informative. The current state of knowledge-raising achievements and future strategies for each crop are highlighted. The principles and procedures of all techniques are discussed in a step-by-step manner so that students can understand this issue very easily. It is hoped that students and practitioners of plant breeding will find this book so very and enjoy the diversity of contents. 402 pages. Pub. Udaipur. 2008. Harded. Condition: As new. New. Contents of our shareholders. Introduction. 1. India's past, present and future oil seed scenario with particular reference to mustard/d rapeseed .M. 2. Mustard rapeseed in India current situation and future prospects / Arvind Kumar. 3. The origin history of genetics and cellular genetics of rapeseed mustard / Shyam Prakash. 4. Floral classification and words of mustard mander/A.K. Misra. 5. Genetic resources to assess the preservation and use of rapeseed seeds for mustard/A.K. Misra. 6. Varietal breeding methods in mustard glass / J.S. Chauhan. 7. Hybrid development in mustard distributed with rapeseed/S.8. Breeding to improve the quality in Berazica oilseeds / S.S. Banga. 9. Analytical methods for estimating the quality parameters of mustard with the emergence of turnip/Satyanshu Kumar. 10. Recent progress in the breeding of resistant bio-stress in mustard/Rajbir Yadav. 11. Breeding to resist mane in turnip seed mustard / Dhiraj Singh. 12. Recent progress in raising amyl-degenerating pressures in mustard/Dr. Kumar. 13. The physiological strategy for improving drought tolerance in crop plants is a characteristic aspect of breeding/shigitist hybridization. 14. Principles of seed production and testing of depleted uranium in mustard/K.H. Singh. 15. Botany to comparative genomics of prasika/A.K. Singh. The application of biotechnology to improve crops/Rajbir Yadav. 17. The scope and problems of genetically modified development in the mustard seed of turnip/N. Ghosh Dustidar and S.S. Varma. 18. Agricultural meteorological planning. M Rao and Diwan Singh. 19. Agricultural requirements for rapeseed mustard and agroecological properties Kumar. 20. Viable and potential mustard farming systems in India/S.K. Sharma. 21. Wise water management in rapeseed and mustard seeds to enhance water efficiency/R.D. Misra and Raju Kumar. 22. Management of salt water/saline and soil formed in mustard/C.P.S. Chauhan. 23. Management of zina in rapeseed based on the mustard-based crop cultivation system/N.T. Yadorago and J.S. Mishra. 24. The role of sulphur in the production of mustard with turnipflowers/N.S. Bhogal. 25. Integrated nutrient management in rapeseed mustard/P.S. Sisenschwar. The role of micronutrients in enhancing the productivity of mustard with turnip/vinay singh flowers. 27. Expectations and problems of organic crop cultivation, with particular reference to rapeseed and mustard/B.S. Mahapatra Kishor Chelana and A. Misra. 28. The potential and problems of biofertilizers with a focus on turnipweighing mustard/R.B. Barrick. 29. Improving soil health and fertility in order to enhance the productivity of mustard crops and yields in Maharaj Singh. The government's commitment to the protection of the human resources of the united states is a key element in the development of the country's economy. 33. Management of mustard diseases that have seeded rapeseed with particular reference to Indian conditions/C. Chattobuye. 34. Partial resistance to the damage to the puns that are replaced by the removed mustard/S.J. Kolte. 35. Resistance to white rust in prasika species with a special reference to turnip mustard/R.P. Awasthi. The committees are also established to deal with the effects of the inability of the government to take into account the need to address the effects of the economic and political disasters. C Sachen. The government's policy of ensuring the safety of the people of The O'Hare is a major priority for the Government and the government. 38. Recovery and prospects in insect pest management/H.C.L. Gupta. 39. Quarantine and biosafety issues in the safe movement of mustard gas from rapeseed/R.K. Akhtarbal F. Celia Chalam and Kvita Gupta. The government's policy of supporting the government of the people of The O'Hare is a major concern for the government. 41. Use common contrast analysis to estimate lost data and control errors in the experiment/A.P. Mishra. 42. Statistical method of studying the homogeneity of variation and analysis collected in agricultural experiments/A.B. Mishra. 43. Appearances and features. Seller 1 Call this seller 5. On this item: Agrotech, Udaipur, 2009. Harded. Condition: As new. New. Introduction to contents. The government's efforts to address the problem of the use of the new system have been a source of concern. 2. Sustainable agriculture from green to evergreen revolution/Avdesh K. Sharma. 3. The impact of global warming and climate change on agriculture/Anand K. Sharma. Satellite observations on climate change/N.R. Patel. 5. Adapting to the impacts of climate change/Badmakar Tripathi on Indian agriculture and its impact on it. Climate change in Regions/N.S. Murty and R.K. Singh. 7. Small climates in the Himalayan region and their effects on crop productivity/n. 8- Climate as a basis for dividing the Suman Kumar region into regions. 9. Relationship Weather Crop Modeling / R.K. Singh and N.S. Morty. 10. Modelling crop yields using remotely sensing agricultural meteorological data/N.R. Patel. 11. Human Factors and Climate Change/GBN Ray. 12. Climate impact on soil formation and development/H.N. Singh and S.K. Singh. The impact of weather and climatic conditions on soil fertility/Subaran Singh. 14. Climate impact on microbial properties of soil/h.b. Singh. 15. Climate change and agricultural productivity/S.K. Saini and Amit Bhatnagar. 16. Climate and weather impact on horticultural crops/L.D. Becht. 17. Climate and weather impact on plant crops/N.B. Singh. 18. Weather management for sustainable horticultural greens and ornamental crops/N.B. Singh. 19. The impact of climate and weather on ornamental crops/Rangan Srivastava. 20. Material factors affecting weather and climate/B.R.K. Gupta. The government's efforts to address the social and political climate are a source of great interest to the people of The O'Hare. The role of agroforestry in weather management/B. C Saini. 23. Climatic conditions affecting forest fires and the impact of forest fires on local weather/Republika Srpska Rajput Rajesh Kauschal and Rika Borohit. The impact of climate change on agricultural ecosystems and the Policy Initiative/Uma Malcania and Asha Obadaday. The impact of past climate changes on social adaptation affects socio-political and ecological perspectives/ Veer Singh. 26. The environmental consequences of tillage practices in the rice wheat growing system and its control measures. C Thakur. The impact of climate change on the hydrological cycle. C Sharma. 28. Climate-related pressures and adaptive features in animals/S.K. Rastogi and J.P. Cordy. 29. Weather management for the sustainability of livestock production/Ashok Kumar. 30. Climate and weather impact on poultry production/R.K. Sharma. 31. Weather Management for the Sustainability of Poultry Production / R.K. Sharma. 32. Monsoon and Indian weather forecasts for sustainable agriculture/R.K. Singh and N.S. Murty. The impact of climate change on biogas production/TK Bhattacharya. 34. Crop breeding for flood tolerance/ M.Z.K. Warsi. 35. Genetic manipulation to stimulate plant tolerance against limited soil moisture and low temperature conditions/N.K. Singh and C.S. Kar. 36. Plant diseases in relation to climate change/F.S. Bondher and Sri Vinod K. Mihara. 37. Climate change and biodiversity/GBN Ray. The impact of climatic conditions on food quality/Y.K.J.A. Microbiological changes in food grains during storage, as well as weather. M Tyagi. 40. Irrigation as a tool for managing bad weather/h. C Sharma. 41. Deepwater Flood Control Measures/J.K. Singh. 42. The effect of thalamus and shelter belts in disease management Weather / H.S. Mishra. 43. Crop prevention from frost and fog/Suman Kumar. 44. Estimate of methane and nitrous oxide in soils incubated by gas chromatograph/venacich and bharadaage. 45. The use of statistical methods in the study of climate change/H. Ahmed. The role of counselling and communication of weather-based information among farmers. B Singh. 47. Effective presentation skills some tips / Birendra Kumar. The impact of climate and weather on fisheries production/h.r. Singh. Seller inventory #72356 More information about this seller 1 Call this seller 6. About this seller 1 Call this seller 6. About this item; Dava, Delhi, 2008, Harded, Condition; As new, New, Introduction to contents, Introduction, 1. Agriculture 1, Small protogenism from Hippophae rhamnoides L.) /Ferendra Singh and Rajesh Kar Gupta. 2. Seabukthorne Publishing Methods in Canada/Thomas S.C. Hippophae rhamnoides L. publication in Ukraine/Andrei F. Lebeda. 4. Farm practices and management in Sebokthorn/Thomas S.C. Commercial cultivation of Sebokthorn in western Siberia Russia / Yuri A. Zubarev. 6. Sebokthorn Orchard Management Practices in Ukraine/Andrei F. Lebeda. 7. Experience on the aerial sowing of the Henan Sea (Hippophae rhamnoides L.) in Les Plato China/Li Daikong Liang Yinn Kang Xinhai and Chen Yunming. Genetics and Education 8. Statistical correlation of properties in the genetic and ecological aspects of Sebokthorn/G.M. 9. Sexual virtual patterns and their dependence on the color of seeds in Hippophae rhamnoides L.) /M.I. Lbova. 10. Morphological studies on the first paper of the Seabuckthorne seedlings and their application to applied/E-U selections. Masaeva 11- Introduction and cultivation of hippo at low altitude / Lu Rongsin and Kao Yaling. 12. Analysis of genetic differences in the main characters of the Sibukthorn Hybrid Brut / Yuzeyuan Lixingguo Huojunwei. 13. Seabukthorn Education for Ecological and Economic Improvement/J. Chengbin, W. Xufeng and L. Chongwang, 14. Study on hybridization between Russian and Chinese varieties of Sebokthorn/Lu Rongsen and Meng Vanlin, 15. Androherphrodeti in Sepocthorn (Hippophae rhasmnoides L.) /G.M. Skoridine, Iii, Diseases and pests 16- AIDS, insects, diseases, integrated management of diseases and major pests of Sbuckthorn / Yuxing Luu Shi Xiangzhong and Zhichu Xu, 17, Pest and weed diseases of Hippophae rhamnoides L., China/Dong Jin ming dafgen ren jun gwyn ging xin xin and kao man, Longjorn (Asjas haladendri) and its control in Sepocthorn in China / Van Rangun Dong Jingming Cao Man and Liu Ying. Biochemistry 19- Compounds related to the sensory properties of Sipuckthorn (Hippophae rhamnoides L.) /Katya Titinen and Haike Kaleo. 20. The composition and medicinal properties of Seabuckthorn Juice / A. Zip and Khan I. 21. The composition of fatty acids of fruit and seed oils from some high-yielding forms of sebukthorn in the Indian Himalayas/Ferendra Singh Rajesh Kar. Cheshire Tandon and R.C Sawani. 22. Dynamics of neutral fat accumulation during the maturation of Hippophae rhamnoides L.) fruits/A.G. Vereshchagin and V.D. Tsydendambaev. 23. Biochemical changes in Flovonoids during the maturation of berries and leaves in Sepocthorn/L.X. Hua and L.H. Zhang. Pharmacology 24. The preventive and therapeutic possibilities of Hippophae rhamnoides L./S. Geetha M. Basu A.S. Jayamurthy A.S. Malhotra K. B. Prasad R. Kumar and R.C. 25. Hebova i. C ghoul. 28. Hippophae rhamnoides L.) can heal on normal and debilitating wounds, it was noted that it was reviewed/A. Gupta R. Kumar N.K. Obaday and R.C. I'm sorry. 29. Stomach ulcers in animals and the role of Sebokthorn in its management/S.B. Tayagi and A.C Varcheni. 30. The fractions of the mulberry-separated oluseum in Sebokthorne produce stabilization studies/C. Socaciu C. Mihis and A. Noke. 31. Sibusom Sebokthorn fractures are valued as studies of the stabilization of cosmetic formulations/C. Socaciu S. Tichonova A. Noke and H.A. Diehl. 32. A complex study of Seabuckthorne as the source of the production of The Hepburnhamin/F. Seller inventory #64909 More information about this seller | Call this seller 7. On this item: Atlantic, 2012. Hardcover. Condition: New. Dust jacket case: new. First edition. Contents: Volume 1: Introduction. 1. Collecting, classifying and tabulating data (official representation and charts). 2. Central trend measures. 4. Moments, skewers and cortusis. 5. Fitting curve and way of lower squares. 6. Link analysis. 7. Regression analysis. 8. Multiple and partial link - dip. 9. Interpolation and extrapolation. Volume 2: 10. Possible. Sampling theory. The theory of the test of importance. 14. Chi-square test. 15. Tests are important based on t, F and Z distributions. Analysis of time series. 17. Difference Analysis (ANOVA). 18. Indices. 19. Association of Qualities. The Practical Statistics Book is designed in two volumes to cover a comprehensive course in statistics, trade and physical sciences. It offers a comprehensive treatment of statistical methods in such a way that previous acquaintance with mathematics and statistics is not necessary. For students of non-sports background, all sports tools such as permutations, plural, set Multiplied, etc., necessary to study the possibility that it has been handled properly. This book is designed to be ready for use, i.e. it can be used even by those students who have not gone through any theoretical book on statistics. Each chapter begins with a brief introduction to the topic followed by the formulas used, with an explanation of the terms. To better understand the subject, throughout the book, the clarity of style and simplicity of expression were maintained. The book is in two volumes and covers the entire curriculum provided for the statistics paper in university and postgraduate courses at Indian universities, as well as courses provided for in C.S.E. (Civil Service Exam), I.S.S. (Indian Statistics Service) and P.S.C.S.S. courses. (State Public Service Commission) examinations. In each class, a large number of problems have been presented with the aim of helping students solve numerical problems, thereby introducing them to a different type of formula used in statistical analysis. At the end of each chapter, a large number of problems have been given with brain teaser-themed answers, providing plenty of opportunities to practice skill, develop a proper understanding of the subject, and enable students to gain self-confidence. Most of the examples that have been solved, as well as practice problems under brain teaser, have been taken from the papers developed by various universities in previous years as well as from competitive examinations such as C.S.E., I.S.S., C.A., I.C.W.A., etc. The book will be indispensable for students and teachers from different disciplines where statistics are part of the course and also for those preparing for various competitive examinations. Contents: Introduction. Export. 1. Application of bioinformatics in agriculture/ Dr. Filmnorugan. 2. Statistical data - Mining concepts, bioinformatics tools and techniques/Ravi R. Saxena, R. Saxena, Akash Solanke, M.L. Laja. 3. 3D prediction: Protein structure using artificial neural networks/K. ENA. 4. Genomic approach to study the evolution of insect mitochondria by non-coding LSU and SSU rRNA/S. Gifta Lorrainea, Christy Jansi Joy P., Arol Samraj D. and Briakomari Joyce C. 5. Analysis of microray/M. Balakrishnan, R.C Srivastava and M. Ramachandran. 6. A new way to encode sequences to look for scarcity between consensus DNA sequences / K. Mina, K. Menaka, T.V. Sundar and K. R. Subramanian. 7. Statistical methods of genetic sequencing and microsrate analysis/A.K. Roy and S.R. Martha. 8. The importance of insect genomics in agricultural ecosystems/R.W. Alexander Jesudasan. 9. Bioinformatics tools in molecular fish modeling / George Grinson, K. Sarma, S. Dam Roy and Mukunda Goswami. 10. Goals, Bioinformatics and Challenges / Mayank Pokhrival and M. Balakrishnan. 11. Database of animal genetic resources in the A&Amp; An/M Balakrishnan Islands, S. Giakumar, R.C Srivastava, Mayank Bokreal, Soma Mondal. 12. Database of medicinal plants used in the treatment of asthma/K. Balaji, M. Rajadurai, G. Vidhya, A. Krithika, E. Hudson, Vidya Murali, M. Ramia, Anusha Bhaskar and F. Stanley. 13. In celeko identification of the drug's potential target for the treatment of meningococcal disease - bioinformatics study on penicillin - binding proteins / Vijay Tripathi, Dwijendra Gupta and Navita Srivastava, 14. Text extraction; potential applications in bioinformatics/M. Balakrishnan, R.C. Srivastava, S.K. Zamir Ahmed and Suphash Chand, 15. Diversity and antibacterial activity of coral reefs associated with kamenumist/B. Nithiand, S. Mango, S. Karoha Bandian. 16. The decision tree and its application in bioinformatics/ Raini Jain and Amariendra Kumar Mishra. The government's commitment to the right to freedom of speech is a critical part of the work of the Government. 18. Bioinformatics of Natural Antibiotics/S. Rajarajan, M. Yogable, K. Sangita. 19. PhytopathoSys v1.0: Phytopa enetic expressions of chemically induced Parkinson's disease: inclusion in the neuroprotective mechanism provided by nicotine and caffeine/Kavita Singh, M.P. Singh and M. Balakrishnan. 21. Development of databases on freshwater aquaculture/A.K. Roy and Nebidita Gina. 22. Proteomics and Bioinformatics/A. Subash Chandra Bose, R. Venkateswaran, M. Balakrishnan. 23. Data mining and its applications in bioinformatics Soma/Mondal and M. Balakrishnan. 24. The molecular site of the Philogeni of The Indian Liver Flux, Vasiola (Tremamata: Fasyweida) based on the internal separators copied from ribosomes/P.K. Prasad, F. Tandon, D.K. Bezoal, L. M Goswami, A. Chatterjee. 25. Predicting levels of amino acids in protein sequences using artificial neural networks/K.Meena and M. Manimekalai. 26. Apply a new method of extracting data from raw groups to predict the structural layer protein/ K. Mina and M. Durairaj. 27. Plant Systems Biology/J. Ramesh Kumar, Rajadurai Plant Protection Service and M. Ramachandran. 28. The biological effectiveness of indigenous bacilli in the area of disease in LDCs -9 against insect pests and their characterization through the In-silico/R. Shenbagarathai and A. Mahalakshmi approach. 29. R&D resources and management measures in the Andaman and Nicobar/S.N. Sethi Islands, M. Balakrishnan, The S. Chand and B.Varghese. Seller Inventory #113553 More information about this seller | Call this seller 9. About this item: New India Pub Agency, 2008. Hardcover. Condition: As new. Included dust jacket. Content provided/M.K. Bahan. Introduction/S. Ayappan. Introduction. Contributors. Bioinformatics 1. Growth of the Biotechnological Information System (BTISnet) network in India/T. Madhan Mohan. 2. Building capacity for knowledge management in aquaculture research/A.K. Roy and Neropama Panda. Bioinformatics data generating resources/P. Das. 4. Correspondence analysis in the genetic sequencing study of Labeo Rohita/A.K. Roy and Sushma R. Martha. 5. Design and statistical analysis of carp data/A.K. Roy Shinmai Saho and Sushma R. Martha. 6. Modern biotechnology approaches to the diagnosis of fish diseases/P.K. Sahu. 7. Current trends in probiotics aquaculture/S. Mohanti and N.K. Maiti. 8. Nursery Carp Infection and Immunity/B. Swain B.K. Nanda and S. Dash. 9. Induced breeding experiences of a large Indian brouk, Labio Rohita, a causal effect study/S.D. Gupta and S.C. 10. The state of freshwater aquaculture and its scope/Bindo R. Pillay. 11. Artificial propagation and atonement for fish/F. Rotray. 12. Methods of assessing microbial populations and their role in the aquatic ecosystem/N.K. Mighty R.N. Mandal and S. Mohanti. 13. Current scenario of ornamental fish farming and trade/Saroj K. Swain. 14. Spatial information technology in aquaculture and inland fisheries/M.N. Reddy G.P. Reddy and B.S. Sontakki. The role of GIS and remote sensing in the development of inland fisheries/Sanjeev Kumar Saho. 16. Advanced computer-based soil water management tools in aquaculture/Subindo Adhekari and Bhopudata Mishra. 17. Non-invasive ways to determine the freshness of fish through the electronic smell/Nabron Bhattacharya Pepin Todi, Rjeb Bandwabadaya and Devdol Ghosh. 18. Nanotechnology and its impact on aquaculture/Dalnawas and Sanjib K. Saho. 19. Design and development of india's fishing market data/Anil Rai K.K. Chaturvede and B. K. Malhotra. 20. Application of software in molecular data analysis of Mark P.K. Mehr A. Barratt and B. Das. 21. Software related to fisheries research and aguaculture/A. Anthony and A.K. Roy. 22. Networking professionals through discussion forums on the virtual platform/Lakshmi Murthy. 23. Mapping fish research in India/D.B Ramesh and S. Mohante. Statistics 24 - Statistics 24 - Statistics 24 Statistical Tests applied to aguaculture research / Rabie N. Sobhi. 25. Some useful statistical procedures in the analysis and interpretation of aquaculture data/G.R. Maruthi Sankar. 26. Design and analysis of aquaculture experiments using statistical software/Ravi R. Saxena. The government's support for the government's work in the field of human development is a very important step in the right to development. 28. Bio-measurement techniques in aquaculture experiments/Rito R. Saxena. 29. Statistical programmes in the field of quantitative genetics and selective fish breeding studies/Kanta das Mahabatra. Quantitative methods in the research of the ology/Sinhasich Mishra. 31. Analysis of aquaculture data using computers/P.K. Sataithi and A. Anthony. Economy 32. Fish production and environmental sustainability function / Kumar Das and S.T. Rout. Quantitative methods in aquaculture economics research/K.N. Sahoo. 34. Standard economic analysis of shrimp farming/ P.K. Katiha and Shinmoy Chakraborty. The standard economic approach to estimating Efficiency of aquaculture farms/A.K. Roy and Nebidita Gina. 36. Aquaculture Market Information System /T. Ravisankar A.J. Bunya and M. Krishnan. Project assessment techniques to estimate the research benefits of fisheries research/A.K. Ficht. 38. Assess the impact and measurement of fisheries research concepts/G.P. Reddy and B.S. Sontakki. 39. Decisions on priorities and assessment of fisheries and wetland management in india's flood plains/Nagish K. Barik. 40. Linear programming in the formulation of the fish diet/Nibedita Jena Nirupama and PandaD.P. Rath. Issues of intellectual property rights and fisheries research/Minakshi Brinthho and Abehenav Bragia. Legislation and policies on fisheries in India. Seller Inventory #69319 More information about this seller | Call this seller 10. About this item: Today and Tomorrow Printers and Publishers, 2018. Hardcover. Condition: New. First edition. Contents: 1. Statistical techniques in biological studies/P.K. Sahu. 2. The current situation of the cucurbitaceae family in Bihar with reference to its uses/Gopal Krishna and Anand Kumar. 3. Diversity of algae, fungi, chechnya and non-flowering plants in India: Overview/P. Lakshmi Narasimhan and W. Arisdason. 4. PCR-based DNA marker applied in the assessment of the genetic toxicity of arsenic/parimal kumar khan. 5. Nematodes diseases of major medicinal and aromatic crops and their biological management/Rakesh Pandey, Rubali Gupta and Akansha Singh. 6. Save wild nutmeg in Western Gatt/Sugana K.A., R. Saravanan and S. Nagaraju. 7. Dark Ceuta fungi endophytic- unique root endo-symbiont / Sikha Dutta, Avishek Sarkar and Rebecca Ghanta. 8. Trichoderma Spp: Nature S Gift to Mankind / Ratol Muni Ram and H.B Singh. The committee's work is based on the information provided by the Government of the United States of The United Nations. 10. The role of trees in pollution mitigation/Vina Chandra. 11. Microreproduction and prophynoreconization of fluctuations in Jhingasail Landras from east India/Ashmem Chakraforte. 12. The application of plant tissue cultivation in the conservation of rare and endemic endangered species/Ashihu A. Mao. 13. Exploration of the morphological and microscopic structures of the Siskal in 10 species of the anthemideae (Asteraceae) /Abhejit Shiel and Sobhan K. Mukherjee. 14. Micro-analysis of cyber features in five types of Astria (Astrasi) /Madshri das Datta and Sobhan Kr Mukherjee. The government's decision to re-establish a new government in 2008 was a sign of the need for a new government to be established. 16. The development of a simple methodology for assessing the neolithic stability of tissue culture triggered date palms using a simple sequence repetition between Marker/Nitish Kumar, Arpan Modi, Bhavesh Gajera Andnarayan Subhash. 17. Fluorithassessment of the Udhwa Wildlife Sanctuary, Hebigang, Jharkhand/Onakar Nath Moria.18 Cypselar morphology of twenty-three species of family Das, Bidiut Kumar Jana and Sobhan Kr. Mukherjee. 19. Dynamic confluence of methodological plants and biotechnology: A Reassessment/D. K. Verma, S.A. Dand and H. K. Chourasia. 20. Genetically modified plants: current methods and innovations/Pichon Dio Prasad, Deshsha Kumari, Sangita Sahni and Char Ranjan. 21. Emerging technologies for crop improvement/R.S. Singh, Komari Risha, A.K. Pal, P.K. Singh, Ogjo Kumar and D. Thakur. 22. Biological control of wilt disease in Dr. Sisso by modifying the soil using trichoderma and organic nutrients/R. S. Mishra and H. K. Shoreasia and A.K. Roy. 23. Biophysics: A tool for metabolic profiling in systematic plants / Sanjay K. Chowdhury. 24. Comparative study of Vin Petla Seda Rumifolia L., Mida Cordifolia L./Sataupa Nath and Sobhan Kumar Mukherjee. 25. In the laboratory, an anti-dymotic effect of ditorife extracts against wilting vibrations in some crop plants/V. Jalander and B.D. Gachande. 26. Pgpr in Plant Development: Abiotic Approach / Tamanna Sultana and Arup Kumar Mitra. 27. Scanning microscopes as a modern tool for studying surface morphology of solids / S. N. Choudhary. 28. Problems and prospects for the cultivation of Makhana in Katihar district of Bihar/Mino Sudi and Sanjib Kumar. Intellectual property rights of plant genetic resources and crop varieties in India/Ashish Ranjan, Yuan Kumar and Alok Kumar. 30. Statistical computing in biological statistics with Spss/Nesar Ahmad. 31. Systematic botany: Challenges and Opportunities/Alok Kumar, Pawan Kumar and Ashish Ranjan. 32. The systematic account of the Musai family in the Andaman and Nicobar Islands/L.J. Singh, Sanjay Mishra, Vivik, W.B. and Angotam Anoj Ekka. The benefits, advantages and applications of biotechnology in agriculture - H.K. Overview. Shorasia and D.B. Mishra. 34. Plant biotechnology and its application in fruit crops/Pawan Kumar, Alok.
